

BIG BEAR

Sugar Beet Carts

by Ropa North America

Large capacity - 34 and 40 ton models
Fast unloading— approx. 34 ton in 90 seconds
Each conveyor independently controlled from tractor
All conveyors driven hydraulically
Excellent flotation provided by track system
Robust construction— very low maintenance
Choice of **left** side or **right** side unloading

Load trucks, or make perfect piles for reloading with the Maus

Drive beside, instead of tracking in front of the pile

Good visibility from the cab for unloading

Cleaning action by the scrub roller and unload conveyor

Center unloading maintains a balanced load

Hydraulic lift loading tall trucks

Proven unloading system: all sprockets , chains , shafts, hydraulic motors, and unload conveyor are sourced from **ROPA** and performance proven on the **Tiger**.

Conveyor folds into bunker for road travel
